

PRESS RELEASE January 2011 – for immediate release

Stem Cell Therapy for Equine Tendon Injuries One Day Training Course for Vets

VetCell, the UK's leading equine stem cell therapy company are running their next one day training course with **Professor Roger Smith on 7th March 2011 at the Royal Veterinary College**. The course is for registered vets only. The last time VetCell ran this course, 95% of the responses on the feedback forms were '**Excellent**' – the highest rating an RVC course has ever achieved.

Both the bone marrow aspiration and the stem cell implantation will be demonstrated and attendees will be given the chance to **practice the techniques**. The course counts towards **Continued Professional Development points** and costs £150 per person including VAT. You will also have the option to purchase a **half price** bone marrow aspiration kit and transport box so that you are ready to treat your first stem cell case. For more details on the course and how to book please [click here](#), telephone 01865 922227 or visit www.vetcell.com/training/.
